  5. OLD BUSINESS -
    - 5.1 Gary Herbst, CEO, Kaweah Delta expressed the need To meet certain state mandated seismic requirements. Currently the State is requiring compliance by 2030 ( may be extended to 2037). Kaweah Delta Is seeking the cooperation of the Alta District along with some additional districts (Lindsey and Exeter) in order to be able to issue bonds to

do the construction. Mike Wilhelm provided questions about the status of the efforts to date. Alta is willing to discuss cooperation provided some facility like a JPA is used between the Districts. Alta has no interest in any type of merger. Mr. Wilhelm also stated that in order to gain support within the Alta District some additional benefits would be needed. He suggested that expanded urgent healthcare by Kaweah would be beneficial. Additional hours and scope of service would be key. Mr. Herbst felt all of that should be part of the ongoing discussion. It was also mentioned that current pending legislation might substantially ease the seismic issues (SB758). He stated that even without the seismic pressure there was still a need to substantially modernize facilities and so discussions should proceed in any event. Due to the Covid 19 situation the most pressing matter, we should deal with this somewhat down the road. It was agreed that we would put together a talking group of the attorneys and two representatives of each District to start discussions. There is a possibility that Exeter and Lindsey could be invited into this part of the process.

Mr. Wilhelm was asked to update the Board on SD 758 at the next meeting.
